

DELPRO XTEND

The DelPro Xtend Jamb Extension offers a sophisticated and premium solution for enhancing the aesthetic appeal of your window jambs while streamlining the installation process. Unlike traditional MDF jambs, which are susceptible to moisture damage and deterioration over time, the DelPro Xtend is crafted from high-quality PVC, ensuring it remains resistant to rot and requires minimal maintenance.

With three distinct width options and an adaptable trim, this innovative product allows for exceptional customization, enabling it to fit seamlessly into any window jamb configuration. Its straightforward installation process makes the DelPro Xtend an ideal choice for a wide range of window applications, marrying functionality with elegance for a beautiful finish that will last.

A rigid connection featuring slats and alignment guides for enhanced stability and direction

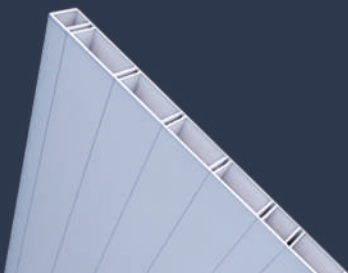

Attractive interior window frame that enhances the aesthetic appeal of the space

CUSTOM MADE TO FIT YOUR WINDOWS

Both the 6" and 12" versions allow for customizable widths, ensuring a tailored fit for a wide range of applications, from small residential windows to larger commercial projects.
